Having more choices puts you in the driver's seat.

LTL AND TL SOLUTIONS

If it were just about getting from point A to point B, everyone's life would be easier. The reality is that competitive business demands the best possible solutions. We're confident we can help you find the best fit, whether your goal is speed to market or the most economical solution for your requirements. With coast-to-coast coverage across Canada, our offerings include expedited, over-the-road and intermodal ground transportation, all backed by leading technology.

National Fast Freight

offers LTL and TL services with a network of terminals across Canada to meet your needs. With a mix of intermodal and road-based services we can help optimize your cost, service and geographical challenges.

Totalline

offers expedited LTL and TL transportation services. Whether it's a 3-day delivery from Central Canada to B.C. or a 7 A.M. appointment guaranteed delivery in Montreal, Totalline delivers customer satisfaction throughout Canada with reliable expedited and time and service-sensitive capabilities.

Totalline Transport

Bransam Logistics and Kreative Carriers

are based in Halifax and offer LTL and TL transportation services through an extensive infrastructure within Atlantic Canada. Bransam and Kreative have the knowledge, service and quality you can depend on.

Sometimes the man in the middle is exactly who you're looking for.

TRANSPORTATION MANAGEMENT AND 4PL SOLUTIONS

When it comes to your unique transportation needs, sometimes you just need someone to look after it. You'll find that we offer the best advantages of a non-asset based service provider.

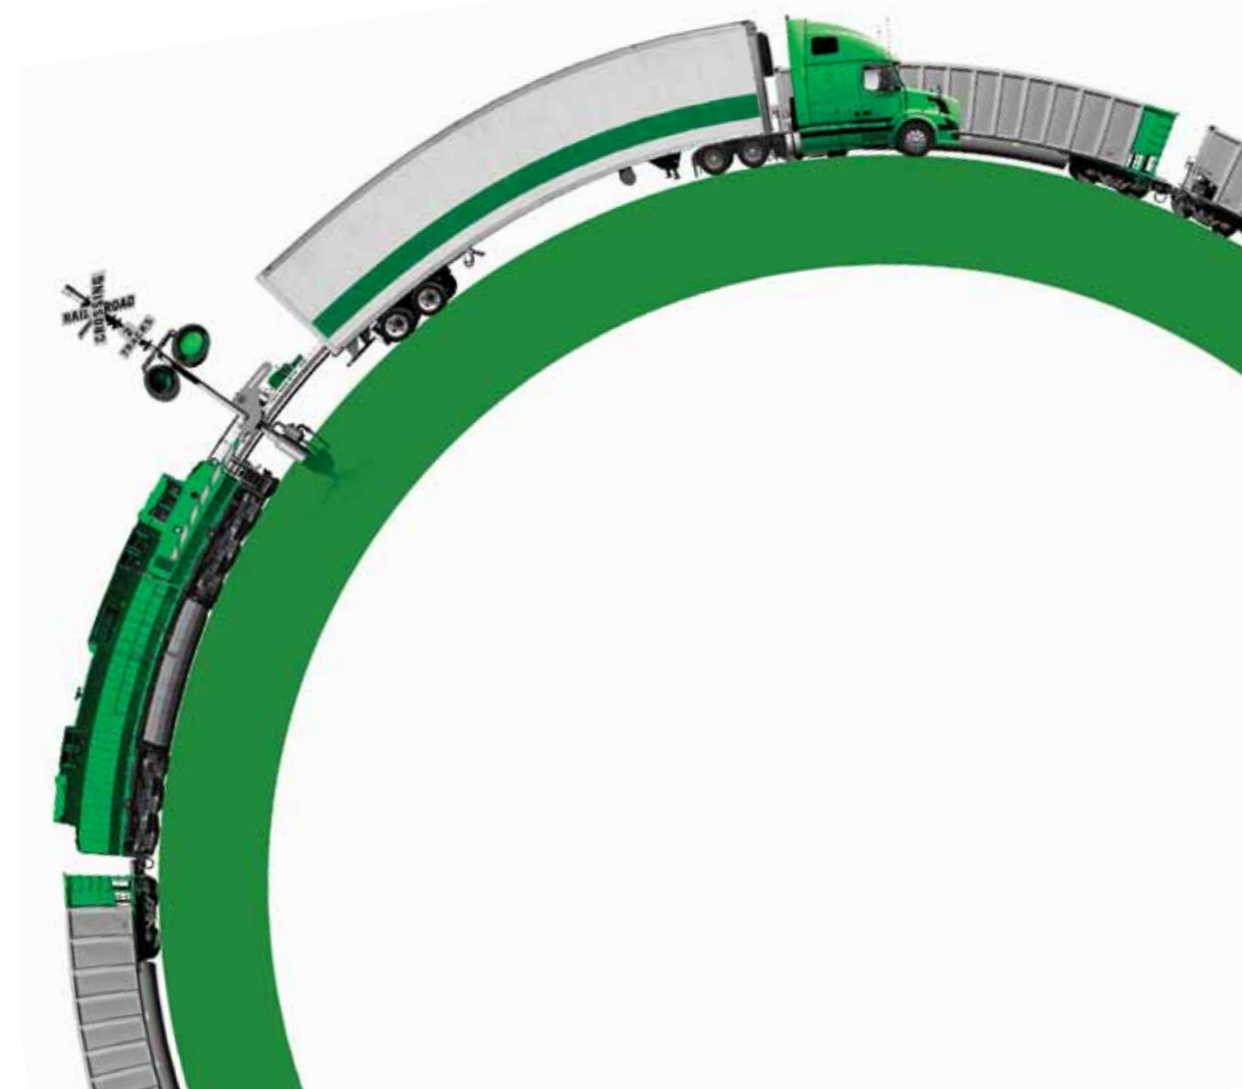

Hyphen

provides customers with one organization focused on Rail Car, Intermodal and Full Truckload freight brokerage for domestic US, domestic Canada and cross border. The flexibility of our offerings includes dry vans, flatbeds, step-decks, reefers or project freight. Hyphen's carrier qualification process ensures high quality service at very competitive prices. As well, state of the art technology allows Hyphen to provide the visibility, transparency and added value to their customer base. This is complemented by the reliability and convenience of selecting a carrier from our extensive database to match your exact specifications.

Transportation Management and 4PL Solutions

Hyphen also provides full transportation management solutions and 4PL services. Through its advanced technology and analysis capability, Hyphen offers services that range from managed transportation solutions to fully outsourced non-asset based supply chain services. Clients are approached on an individual basis and provided with a tailored solution to meet their unique needs based on a non-asset based independent approach.

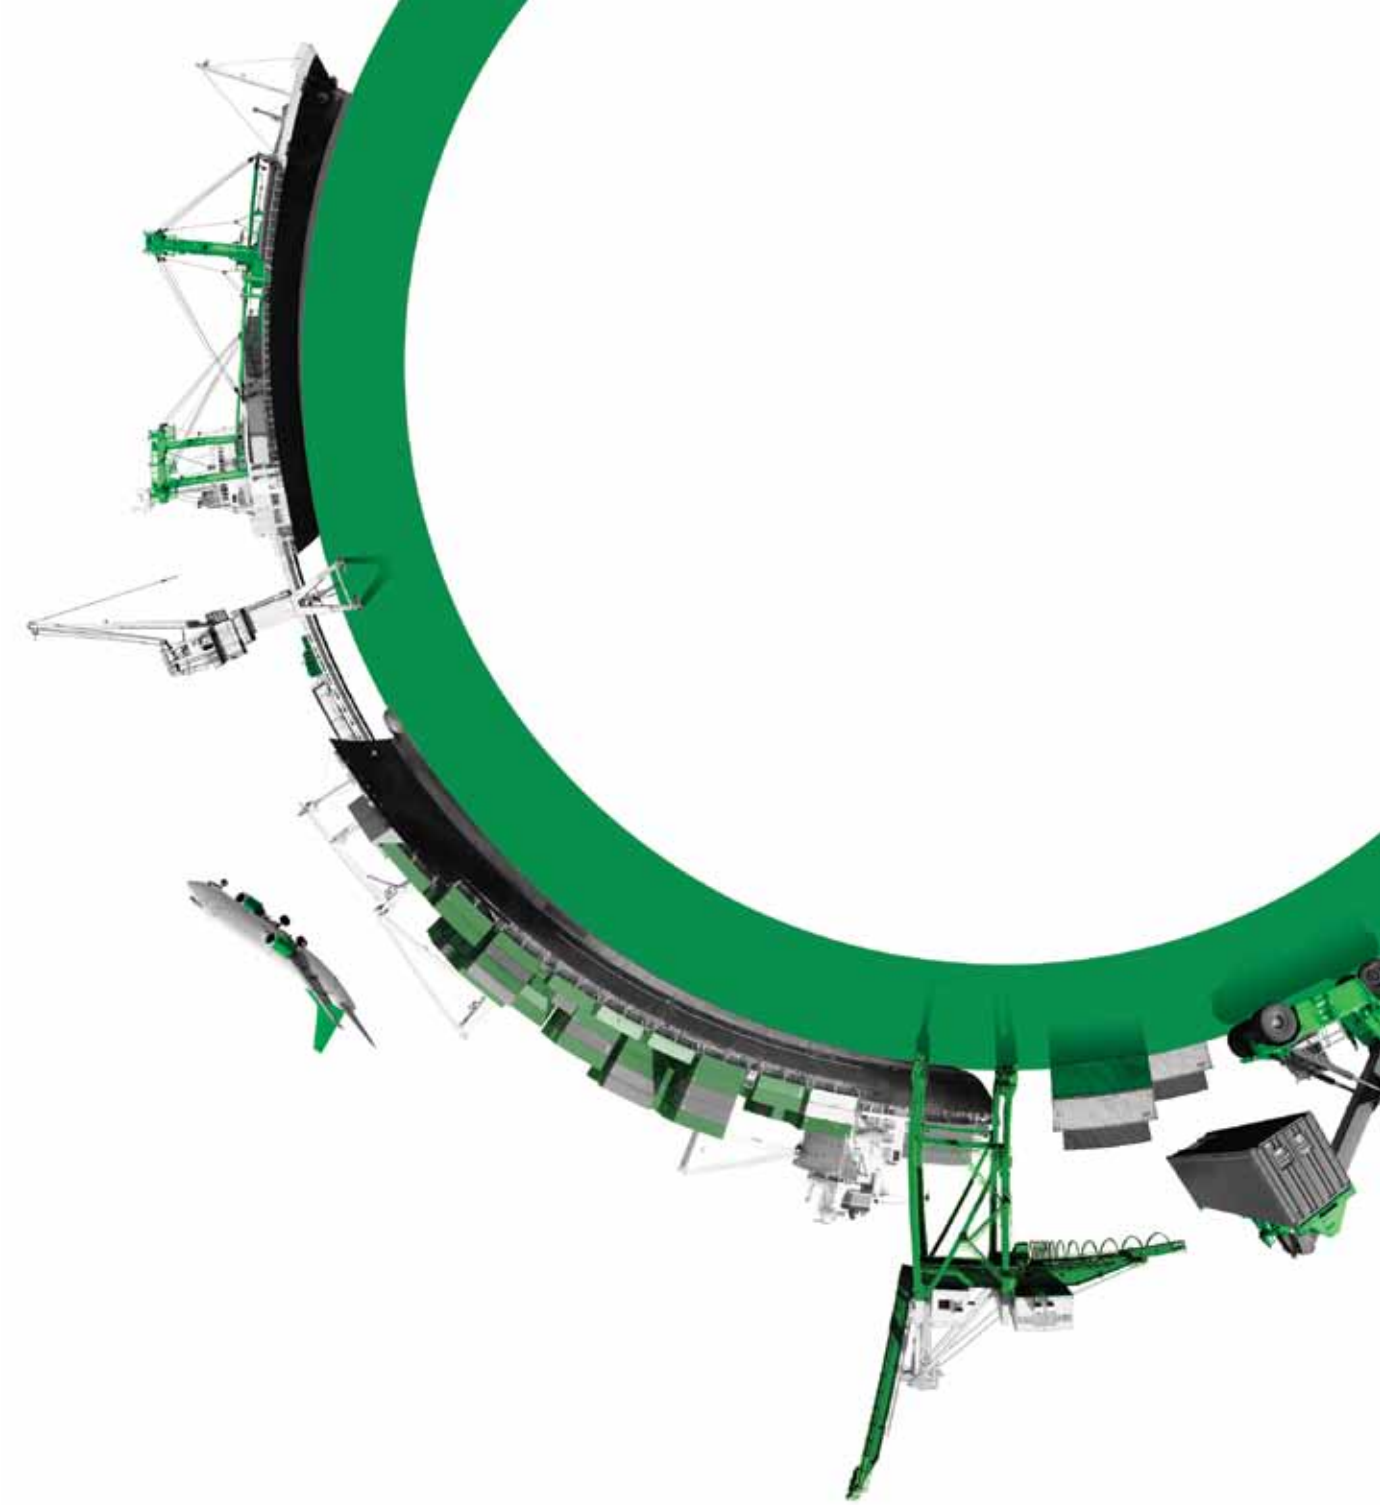

I hyphen

The world is a big place. We can make it smaller in a hurry.

INTERNATIONAL OCEAN AND AIR FREIGHT FORWARDING SOLUTIONS

Each part of the world comes with its own unique challenges. Success requires experience, service and the kind of savvy that only comes from knowing international markets. We specialize in international ocean and air freight from and to all points within North America.

Euroworld Transport

is an NVOCC, bringing extensive global knowledge and expertise on expanding markets to deliver the most innovative solutions for your business. Strategic alliances with the world's leading steamship lines and air carriers bring you expertise and commitment to customer satisfaction. That helps ensure safe and timely transportation of your shipment, no matter how unique. Euroworld also provides full visibility of your shipment, including proactive alerts and customized reporting.

EUROWORLD

There's nothing like the satisfaction of seeing a plan come together.

3RD PARTY LOGISTICS

As companies face increasingly competitive markets, demands for improved results and an increasingly complex world, they are evaluating every segment of their business to improve results. This has led to outsourcing becoming one of the fastest growing trends in business today. Whether you are looking to outsource a portion of your logistics requirements or the entire operation, we can provide the solutions you need. From distribution centre operations to closed loop dedicated contract carriage, put the capability of Indis to work on your behalf.

Indis

works to design a solution that meets your specific needs. Starting with a consultative approach, Indis analyzes your business and supply chain and then provides a unique operational solution. Capabilities include logistics design and reengineering, as well as operations and technology. Warehousing solutions include public and dedicated warehousing services designed with the optimal layout, technology and operating processes for cost-effective solutions and service excellence. Indis is available to support your company as you enter new markets, or as a solution to cost or customer service challenges. Choosing to outsource with Indis can help improve your balance sheet and order cycle times.

Muir's

provides closed loop transportation and dedicated contract carriage solutions. Whether it's an alternative to a private fleet or a solution for sensitive delivery requirements, Muir's can provide a fleet dedicated to your organization. Drivers are fully trained in your unique requirements and operate as an extension of your company. The many benefits of utilizing a dedicated fleet company include experience, higher service levels and an improved cost structure. Muir's can provide your company with a private fleet without the additional cost and administration, as well as an overall improved balance sheet. Choosing experts as partners allows your organization to focus on its core business, enabling Muir's to focus on daily execution and continuous improvement.

Indis and Muir's

provide coverage throughout North America. We can help you reduce your cost and improve your efficiencies by increasing visibility to your shipments. As well, our turnkey solutions can help increase your service levels and customer satisfaction.
